Big Screen Entertainment For Your Living Room.

A new generation of home projector — PJ400

The PJ400 produces a dazzling big-wide screen image - transforming any size living room into a movie theatre. A stunning visual experience is yours with a built-in progressive scan that converts traditional signals into lifelike high definition. Easily connect your entertainment, computer, and game sources via HDTV and component input connectors. Big screen home entertainment projector, the PJ400 - a new generation of home theatre.

PJ400

Ultra-high Lumens
Pack 1,600 lumens in just 2.2 kg. It's the bright choice for the mobile presenter.

Keystone Correction
Techniques used in the projector to minimize the visible effect of keystoning. Images are typically trapezoidal in shape and keystone correction is used to square the image.

Displays HDTV signals
ViewSonic projectors project a wide variety of content which including HDTV signals (480i, 480p, 576i, 720p and 1080i).

Automatic source detection for easy setup
Identify and project RGB and video inputs sources automatically, this is no need to switch source modes before projection.

Supports 4 :3 and 16:9 aspect ratio
Offer increased flexibility for multiple viewing formats.

Easy setup and auto tuning
One-touch setup button for fast, easy sync and sharp focus.

Whisper-Mode
Whisper-mode allows the user to operate the projector at two settings - "normal" for maximum performance and "whisper" for low noise levels plus extended lamp life.

Built-in Progressive Scanning
The function satisfies the requirements of local digital television systems and global satellite programming. The superb visual quality of HDTV programs is displayed to the fullest.

3:2 Pull down
Precision de-interlacing and 3:2 pull down enhance DVD movies for clear, smooth, sharp images.

Digital Gamma Correction
The 10-bit digital gamma correction circuits enable fine tonal expressions that cannot be reproduced by conventional technologies. Being able to reproduce fine differences in light and shade gives images a more 3D feel and permits a rich range of image expressions.

Best Service & Support
At ViewSonic, we are devoted to customer satisfaction. We strive constantly to understand your interests and concerns, and treat you with respect, courtesy and consideration. For the warranty information, please contact your local ViewSonic distributor or ViewSonic service center.

ViewSonic® PJ400 Project — **Model NO : VS10459**

LCD	Type	0.55" inches (x3) Poly-Si TFT with Micro Lens
	Resolution	SVGA 800x600
	Support Resolution	1600x1200 (compressed)
	Lens	Manual focus, Digital Zoom (1:1.2x)
DISPLAY	Size	30"-300" (Diagonal)
	Throw Distance	0.9m-9.2m (2.95ft-30.18ft)
	Lamp	165 watt UHB
	Brightness	1600 Lumens
	Contrast Ratio	300:1
	Keystone Correction	Vertical Digital keystone correction: +/- 15 degrees
	Aspect Ratio	4:3 & 16:9
AUDIO	Speakers	1w Mono speaker
INPUT SIGNAL	RGB	RGB analog
	Video	NTSC, PAL, SECAM
	HDTV	HDTV (480i, 480p, 576i, 720p, 1080i)
	Frequency	Fh:15-91 KHz, Fv:50-120 Hz
COMPATIBILITY	PC	VGA to UXGA
	Mac	Up to SXGA (may require Mac Adapter)
CONNECTOR	RGB Input	15-pin HD D-sub (x1)
	Composite Video	RCA Jack (x1)
	S-Video	Mini-Din 4 pin (x1)
	Component Video	With DSub-15 to Component Video Adapter
	Audio Input	3.5 mm Stereo Mini Jack (x1)
	Control	RS-232 (9 Pin D-sub) x1
POWER	Voltage	100~120VAC/200~240VAC(Auto Switching), 50/60Hz (universal)
	Consumption	240W (Typical)
Language		English, French, German, Spanish, Italian, Norwegian, Dutch, Japanese, Portuguese, Shimplified Chinese, Korean, Swedish, Russian, Finnish, Polish.
USER CONTROLS	Control Panel	TEMP indicator, POWER indicator, LAMP indicator, Standby/On, Menu cursor(Up/Down/Right/Left), Input
